easy to control with your
thumb

**Battery charger on
board,** display with light
indication of charge
status

MADE IN ITALY

The OT-600 is a towing equipment, with three wheels and tiller steering. It is designed to easily move trailer trolleys and other containers on wheels, in safety and comfort, reducing physical stress and improving productivity. Many configurations are possible by choosing among different types of batteries and tires. It can be fitted with several accessories that make the standard product adaptable to many uses.
